In this issue (14 articles)

1. Short Paper

Visualization on vortical structures in the wake of a pair of pitching wings with asymmetrical motion[Yao-Yao Liu](#), [Chong Pan](#), [Yijie Zhou](#), [Yanpeng Liu](#) Pages 185-190

2. Regular Paper

Smoke streak visualization of steady flows over a spinning cone at angle of attack in flight[Abdullah M. Kuraan](#), [Ömer Savaş](#) Pages 191-205

3. Regular Paper

Visualization of hypersonic incident shock wave boundary layer interaction[Zhang Qinghu](#), [Zhu Zhiwei](#), [Lin Jingzhou](#), [Xie Futian](#), [Zhong Jun](#) Pages 207-214

4. Regular Paper

Shock tube exit flow fields through thin membranes[Jennifer Schulz](#), [Beric Skews](#) Pages 215-229

5. Regular Paper

Oblique schlieren image construction from three-dimensional numerical simulations[D. Surujhllal](#), [B. W. Skews](#) Pages 231-243

6. Regular Paper

Self-sustained oscillation of the flow in a double-cavity channel: a time-resolved PIV measurement[Hao Fu](#), [Chuangxin He](#), [Yingzheng Liu](#) Pages 245-257

7. Regular Paper

Visualization of nanofluid flow field by adaptive-network-based fuzzy inference system (ANFIS) with cubic interpolation particle approach[Yao Yan](#), [Arman Safdari](#), [Kyung Chun Kim](#) Pages 259-267

8. Regular Paper

Splash suppression during wafer wet cleaning through drop penetration across metal meshes and porous fiber mats[Chan-Woo Park](#), [Tae-Gun Kim](#), [Min-Woo Kim](#), [Ali Aldalbahi...](#) Pages 269-285

9. Regular Paper

Morphological classification of disintegration behavior of viscoelastic simulant gel propellant in coaxial streams[Seongjoo Han](#), [Jaye Koo](#), [Heejang Moon](#) Pages 287-298

10. Regular Paper

Versatile image-based measurements of granular flows and water wave propagation in experiments of tsunamis generated by landslides[Francesco Bregoli](#), [Vicente Medina](#), [Allen Bateman](#) Pages 299-311

11. Regular Paper

A comparative visualization tool for ocean data analysis based on mode water regions

Midori Yano, Takayuki Itoh, Yuusuke Tanaka, Daisuke Matsuoka... Pages 313-329

12. Regular Paper

Laser array beam propagation through liver tissue

Muhsin Caner Gökçe, Yahya Baykal, Yalçın Ata Pages 331-338

13. Regular Paper

VisAct: a visualization design system based on semantic actions

Hongjin Wu, Danqing Shi, Nan Chen, Yang Shi, Zhuochen Jin... Pages 339-352

14. Regular Paper

Visualizing events in time-varying scientific data

Li Liu, Deborah Silver, Karen Bemis Pages 353-368
